

# S-PARKS NEWS BULLETIN #119

11 FEBRUARY 2022

★ **COVID update:** No Change in current Level 1.

★ **ICE (In Case of Emergency)** – it is always important that someone has your medical details as well as contact details of your next of kin. Yes, Settlers Park have these details but what about when you are out and about? Perhaps shopping or travelling. A suggestion is to have **ICE** as a contact on your cellphone so that if you are not able to communicate that your next of kin can be informed. Another suggestion is to wear a bracelet with your name, allergies, medical conditions, ICE contact details etc. There are some very inexpensive bracelets available on the internet. This could save your life! **see example below**

★ **Hibiscus Room Specials:** Remember to book for the special Valentine's breakfast!

★ **Angling Club:** With a view to forming an Angling Club within the Park, interested parties are requested to contact Barry Luckman (Cottage 8) on Ext 275

★ **Moving of Clinic:** Please note that the Village Clinic is in the process of moving to the Care Centre Building where it is more accessible to all residents, but also with the aim to provide much needed "assisted living" accommodation in the space. The goal is to be open and fully functional by 1 March 2022.

★ **Recent Power outage:** the recent prolonged power outage experienced by half of the cottages in the Park was essentially due to the blow out of the transformer that is situated in the Park. It was subsequently replaced with a new one by CDR. We extend our gratitude to the staff of CDR and Johan for ensuring restoration of our electricity supply much into the early hours of the morning.

★ **Pool rules:** Please note that we are reconsidering the current rules of the Pool which was mainly Covid driven. Currently, continue to book your spot with Akhona. Do not remove the kreepy or fiddle with the pools temperature. Report any issue via jobcards.

***Have a great weekend! Be safe and take care!***

# Hibiscus Room Presents
